Habanos Anejados have been aged in Cuba, in perfect conditions of preservation, for a minimum of five years.

The concept "Anejado" (Aged) is presented for the first time with two new launchings: Romeo y Julieta Piramides Anejados and Montecristo Churchills Anejados. Besides, both of them are new formats in these brands. Habanos s.a. introduces for the first time two new launchings of Habanos Anejados. Habanos already rolled, aged in Cuba for 5 years or more, in perfect conditions of preservation, which has enabled them to gain shades and complexity without losing their initial organoleptic characteristics.

The launching of Habanos Anejados takes place with two vitolas: Romeo y Julieta Piramides Anejados (52 ring gauge x 156 mm long) and Montecristo Churchills Anejados (47 ring gauge x 178 mm long). Both

are new products presented as a special edition in limited quantities which make them unique. In both cases, the Habanos have undergone an ageing process of between 5 and 8 years.

Through the aging process the cigars have become rounder and mellower to the palate, getting touches of wood taste thanks to the years of rest with the cedar protecting it.

The Romeo y Julieta Piramides Anejados and Montecristo Churchills Anejados launchings are a double novelty: due to the process of ageing as well as the introduction of formats which are not included in the regular portfolio of both brands. Habanos Anejados are commercialized in their original boxes, which remained unlabeled during the entire ageing process and that have been dressed with the corresponding labelling of each brand to be introduced to the market.

My first Cuban cigar

It was the year 1994, the start, my first cigar. Taking in consideration that I come from a well-known city in tobacco cultivating, that of Shkoder, I was already familiar with tobacco in general and I've been smoking since I was 16-17 years old, like all my coevals at that time. But my first Cuban cigar was love at first taste and still continues to be. It was the year 1994, I was in Augsburg, Germany and The Room of Gentlemen invited me to be part of their Club and they offered me my first Cuban cigar, not just smoking it but they made me part of the tasting, processes of the cigar and the Cuban Culture in general; cigars, rum etc. they introduced me the whole tour. It was unforgettable.

What impresses me in Habanos...

I can firmly say today that a Cuban cigar is part of my character as well. It accompanies me almost everyday in the company of other artists or when I'm alone, working in my studio. So I can say that it is somehow the color of my soul when I'm traveling in the creative thoughts at the sea of a glass of wine. And I love the journey every cigar takes me to.

My favorite cigar is...

Of course, the Queen of Cigars is definitely the Cohiba or the Graceful Lady as I tent to call „her“. „She“ is the finest lady on the hand of a gentleman but I do enjoy other brands as well, especially those offered at the „Habano's Friends Night“ at Sheraton Hotel Tirana, in the company of good friends, being locals or foreigners. I'm thrilled to be presented with the new entry cigars. It's always a pleasure. As a representative of Modern Albanian Artists and being a „Picture Extravagante“ (extravagant painter), every Cuban cigar arises my curiosity and it ignites my fantasy and when it is accompanied by the presence of a good company, good friends it makes my night even brighter and I could easily enjoy two cigars consecutively like we did last time with Quintero or Veguero etc.

Time for a cigar...

To me, generally, the time for a cigar is around noon, after a good meal, but afternoons as well, in my studio. A Cuban cigar is the best company I could have. The process of smoking and tasting a cigar it crystallizes my thoughts, while a drink warms up my soul and increases my inspiration.

My favorite store

Well, this is quite a story too. It was a call from destiny that „La Casa del Habano“ was opened at the same year and at the same place that I opened my exhibition and later on my Atelier, in 2008, at Sheraton Hotel Tirana and that bond has never broken since then. It's a pleasure to walk inside the walking humidior and to have the possibility to choose from all those varieties, „Ediciones Limitadas“ or the „Exclusivo para La Casa del Habano“ series.

My personal recommendation to cigar lovers

When a gentleman has his „lady“ by his side, what would a gentleman need more? So in a few words, it's a Cuban cigar and... There's no recommendation from my side. Everyone is a lover, there's no recipe. Smoke a Cuban cigar and be yourself! When a Cuban cigar is offered to you, no second thoughts, just take it, grab a Habanos Newsletter too so as to be informed and all the other things, you will learn them by experience.

- Cigar?

- Yes sir!

Take it! Enjoy it!

And let the river flow...
